University of Windsor	**School of Computer Science** **Summer 2020** **COMP 3340-91** **World Wide Web Information System Devel**

Instructor:

Abedalrhman Alkhateeb   (alkhate@uwindsor.ca)

- LT-5112,
- Office hours / Tues 6:00pm – 7:30pm; Fri 12:00pm – 1:30pm Online

GA/TAs for this course (Online)

- TBA

Please note that a student is not allowed to take a course more than twice without prior permission from the Dean of Science and that the marks of the latest attempt will be counted.

Course Details:

o **Text Book:** (Learning PHP, MySQL & JavaScript, 5th Edition. With jQuery, CSS & HTML5, by Robin Nixon, O'Reilly Media, 2018, ISBN-13: 978-1491978917).

o **Pre-requisites:** Must have successfully taken 60-212 and 60-254

o **Course Description:**

This course is designed for people who want to make their data available to others over the Internet. Topics will include WWW authoring, WWW site planning, executable programs that create dynamic documents, the client-server model, multi-tier WWW software architecture, and security aspects

Course Evaluation: (Tentative- All subject to be changed)

Labs:	10%
Homework Assignments:	20 %
Midterm 1:	15 % Friday, June 26 at 7:00pm. Online.
Project:	35 % (10% for project proposal, 30% for Final project)
	Proposal report deadline June 30,2019
	Final project report and implementation deadline July 25,2019
Final: (comprehensive)	20 % (TBA) *

*Make sure you are available at that time, please.

- Home assignment/project deadlines are tentative.

The University of Windsor uses a percentage marking and grading scale. Grades are assigned as integer – valued grades. More details can be found in the senate policy "Grading and Calculation of Averages" at the University of Windsor Senate web page: www.uwindsor.ca/senate.

Homework submission and late submission policy:

There will be 5 assignments. Each assignment will be due at the beginning of the class in two weeks after being handed out. Late submission of a homework assignment is subjected to a 20% per late day penalty, including weekends. All assignments must be implemented and deployed in "MyWeb" and submitted electronically through the course related Blackboard site (blackboard.uwindsor.ca). The Blackboard site will

automatically close accepting submissions at the due date/me. Each assignment must be done individually, with no copying from any other source (see Policy on Academic Misconduct).

Missed Midterm/Final exam(s) policy

If you miss any midterm exam, its percentage will be carried over to the next exam (or the final exam as the case may be) but ONLY for valid and verifiable reasons as explained. If the student misses the final exam and has a valid and verifiable reason, she/he will be required to write a makeup exam once the term is over (see the Makeup exam policy below). If you are medically unfit, have your doctor fill up the "**UWindsor Faculty of Science Student Medical Certificate**" available from the Blackboard site. You must provide this note - in original - to the course instructor or to the office of the School of Computer Science within a week of the scheduled exam date. A doctor's note without professional medical opinion will not constitute a valid reason and will not be accepted. A medical note must be obtained on the day of claimed sickness (unless it is not medically possible) and the doctor's note must clearly state it. For other reasons (other than medical reason such as family reasons, participating in the university activities, etc), the student must contact the department, not the instructor for carrying over the marks or make-up exam. The student must provide proper proof document to the department (The secretary of undergrad csinfo@uwindsr.ca or The director), if the department verify the proof, the student can   In the absence of UWindsor Student (Faculty of Science) Medical Certificate and a proper proof (for other reasons), no makeup exam will be allowed (for regular exams – carrying over a percentage to the next exam). Remember that having a medical note does not automatically makes you eligible for a makeup exam. The instructor reserves the right to reject a medical note.

Missed Makeup exam policy

If the student misses the final exam for a medical reason (same as above), there will be a makeup exam on (**TBA)** Exact place of makeup exam will be announced later. There will be no makeup of the makeup exam. If you miss both the scheduled final and the makeup exam but can provide a satisfactory evidence and have completed at least 60% of the course work, you can request to the Dean of Science for an aegrotat grade (or the average of taken exams will be used to substitute for the missing exam).

Policy on Academic Misconduct (Cheating/plagiarism, etc.)

The University believes in the right of all students to be part of a University community where academic integrity is expected, maintained, enforced, and safeguarded. The University expects that all students will be evaluated and graded on their own individual work. The University recognizes that students often have to use the ideas of others as expressed in written, published, or unpublished work in the preparation of essays, assignments, reports, theses, and publications. However, the University expects that both the data and ideas obtained from any and all published or unpublished material will be properly acknowledged and sources disclosed. Failure to follow this practice constitutes plagiarism and is a form of academic misconduct subject to disciplinary procedures as set out under Senate Bylaw 31.

You are expected to do all of your work in any of the homework assignments and exams individually, without the help of others. In cases of academic misconduct as defined in Senate Bylaw 31, instructors are required to report to the Director of School of Computer Science and/or Dean of Science. In such cases, you will get zero points for that homework assignment or question in exam. This will be of who cheated from whom. You are responsible for protecting your work from others. The following behavior will be regarded as cheating:

- Copying assignment(s).
- Allowing another student to copy an assignment from you and present it as his/her own work.
- Having access to exam/test paper prior to exam/test.
- Asking a teaching assistant for an answer to a question during an exam/test.
- Presenting another's work as your own.

Use of Plagiarism-Detection Software

SafeAssign and some other scripts will be used for some or all student assignments in this course, at the instructor's discretion. You will be advised how to submit your assignments. Note that students' assignments

that are submitted to the plagiarism-detection software become part of the database (or Note that students' assignments that are submitted to the plagiarism-detection software will not become part of the database as a result of the instructor's choosing that option for this course). You have the right to request that your assignment(s) not be run through the student assignments database. If you choose to do so, the request must be communicated to me in writing at the beginning of the course.

Privacy and copyright: Your privacy is protected even if your name and/or student number is on your assignment because the plagiarism-detection software does not make students' assignments available to outside third parties.

Policy on Internet use

As per university policy, all emails correspondence originating **only** from the uwindsor.ca domain will be answered.

Statement on SET

In accordance with the Senate policy, **Student Evaluation of Teaching** (SET) will be administered during the last two weeks of the class schedule.

Statement on Attendance

Though not required, attendance is very important. Lectures will contain many additional examples of the material covered in class. All of the exams and homework assignments will be primarily (though not exclusively) based on the material presented in class. Lectures will also include necessary information pertinent to homework assignments and exams.

Important Dates:

Date	Event
June 1st, 2020	Academic add/drop 12 week class; last day for late registration & change of courses
June 27th, 2020 to July 5th, 2020	Reading week.
June 26th, 2020	Midterm on Saturday of the 6th week, at 7:00 pm, location: Online
July 26th, 2020	The Last day for voluntarily dropping the course.
Aug 18th, 2020	Last day of classes
TBA between Aug 21st, 2020 to Aug 29th, 2020	Final Exam , location: Online

Announcements:
USci Network:
The USci Network brings together students, faculty and staff from across all Faculty of Science programs to work collaboratively in providing a unique integrative support system with the goal of enriching the student experience. Located in Rm. 335 Essex Hall, students can participate in many of our initiatives including Careers in Science, Science Meets Art (SMArt), Women in Science (WinS), Destination Science, Sci of Relief and Science Living Learning Community. More information will be sent through Blackboard in September 2018 on how you can connect to the USci Network, participate in upcoming events and be engaged!
Feeling Overwhelmed? From time to time, students face obstacles that can affect academic performance.
If you experience difficulties and need help, it is important to reach out to someone.
Mental and Physical Health Issues:
For help addressing mental or physical health concerns on campus, contact (519) 253-3000:
- Student Health Services at ext. 7002 (http://www.uwindsor.ca/studenthealthservices/)
- Student Counselling Centre at ext. 4616 (http://www.uwindsor.ca/studentcounselling/)
- Peer Support Centre at ext. 4551

- My Student Support Program (MySSP) is an immediate and fully confidential 24/7 mental health support that can be accessed for free through chat, online, and telephone. This service is available to all University of Windsor students and offered in over 30 languages. Call: 1-844-451-9700, visit https://keepmesafe.myissp.com/ or download the My SSP app: Apple App Store/Google Play.
- A full list of on- and off-campus resources is available at http://www.uwindsor.ca/wellness.
- Should you need to request alternative accommodation contact your instructor, head or associate dean.
